

Five red skittles

Sing this song to the traditional tune of *Ten Green Bottles*

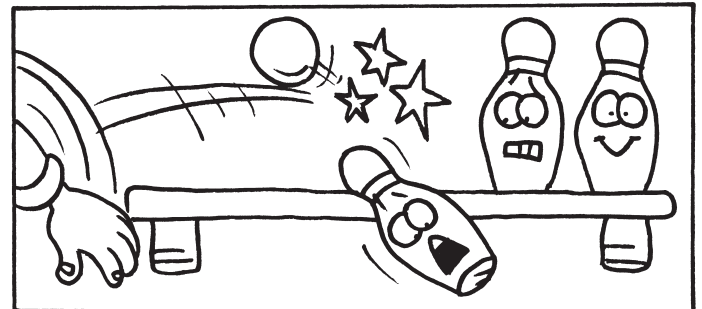

Five red skittles lined up in a row
 Five red skittles, lined up in a row
 And if one red skittle should be
 knocked down by a throw,
 There'll be four red skittles lined up
 in a row.

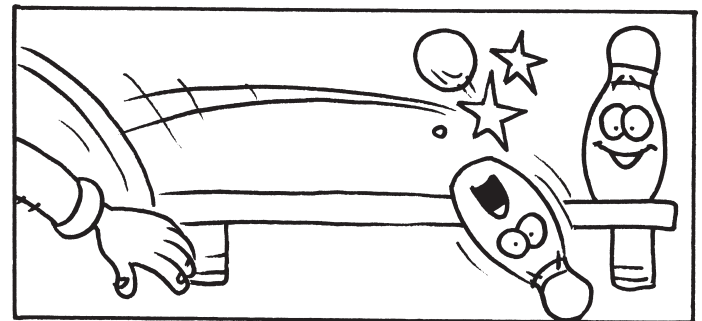

Four red skittles, lined up in a row
 Four red skittles, lined up in a row
 And if one red skittle should be
 knocked down by a throw,
 There'll be three red skittles lined
 up in a row.

Three red skittles, lined up in a row
 Three red skittles, lined up in a row
 And if one red skittle should be
 knocked down by a throw,
 There'll be two red skittles lined up
 in a row.

Two red skittles, lined up in a row
 Two red skittles, lined up in a row
 And if one red skittle should be
 knocked down by a throw,
 There'll be one red skittle lined up
 in a row.

One red skittle, lined up in a row
 One red skittle, lined up in a row
 And if one red skittle should be
 knocked down by a throw,
 There'll be no red skittles lined up
 in a row.
